

Memorandum

To: CHAIR AND COMMISSIONERS

CTC Meeting: December 14-15, 2005

Reference No.: 2.1b.(2)
Information Item

From: CINDY McKIM
Chief Financial Officer

Prepared by: Ross A. Chittenden
Division Chief
Transportation Programming

Ref: **STIP AMENDMENT 04S-083**

The Orange County Transportation Authority (OCTA) is requesting that this proposed State Transportation Improvement Program (STIP) amendment be noticed at the December 2005 California Transportation Commission (Commission) meeting and be considered for approval in February 2006. This Notice is an informational item allowing the Commission to review the proposal, comment and/or ask questions prior to taking formal action in February 2006 or later.

OCTA proposes to change the implementing agency for the Right of Way (R/W) and Construction components on the Culver Drive Southbound Off-Ramp Widening project (PPNO 2796) on Route 5 from the Department of Transportation (Department) to OCTA and also proposes to revise the Regional Improvement Program (RIP) as follows: a net decrease of \$198,000 in FY 2004-05; a net increase of \$181,000 in FY 2005-06; and a net increase of \$246,000 in FY 2006-07, for a total increase of \$229,000 in the RIP. This will increase the total project cost from \$1,959,000 to \$2,188,000.

RECOMMENDATION

The Department recommends the proposed STIP amendment be approved at the February 2006 Commission meeting.

BACKGROUND

The Culver Drive Southbound Off-Ramp Widening project (PPNO 2796) includes widening the Southbound Route 5 off-ramp from one to two lanes.

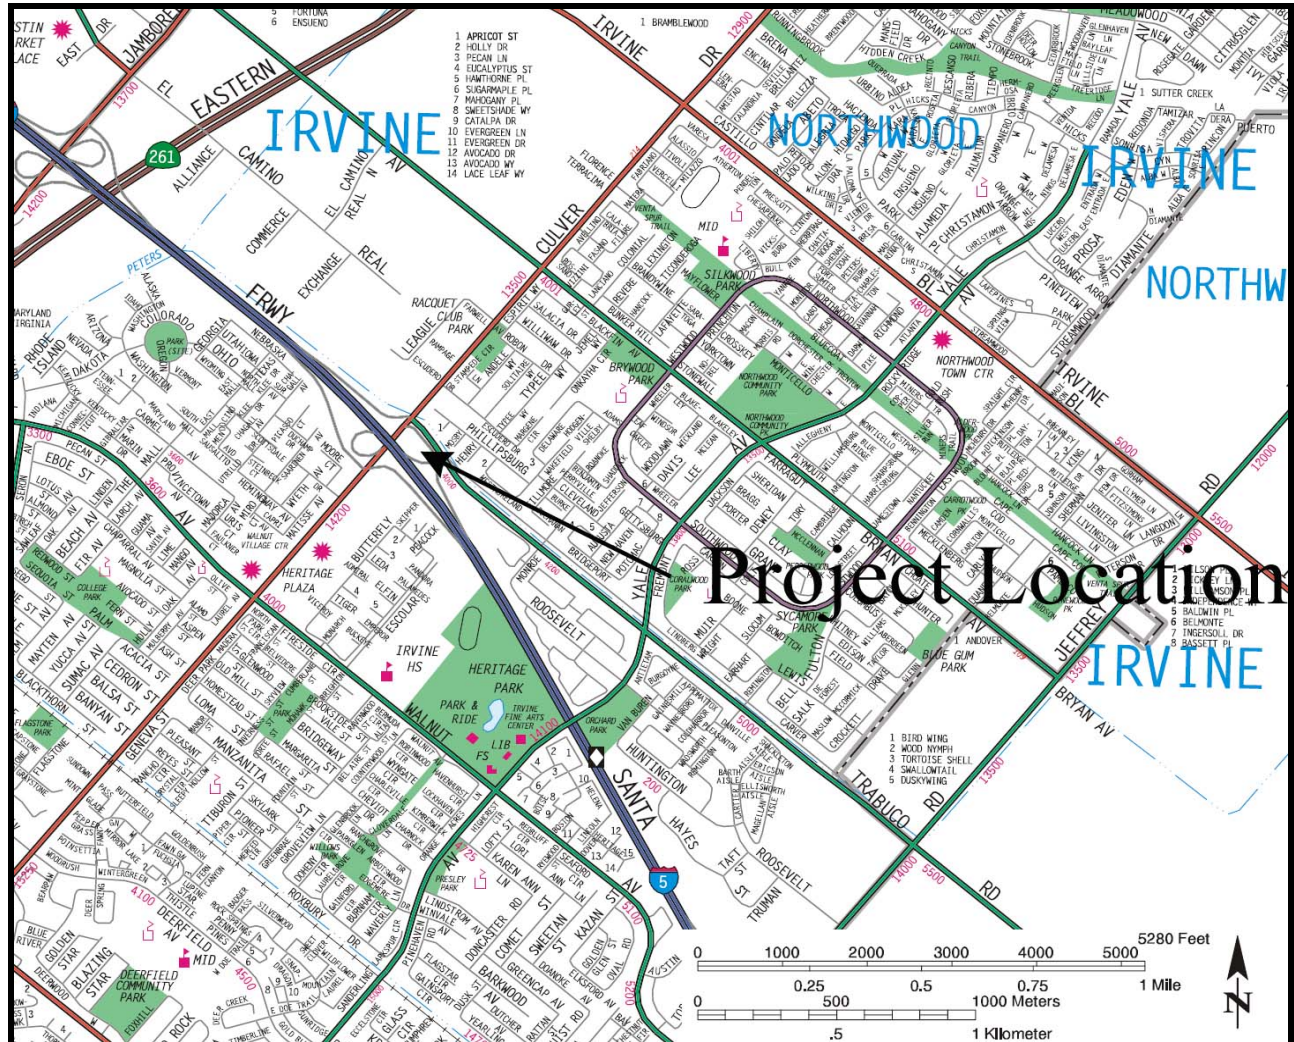

OCTA is currently the implementing agency for the Design (PS&E) component of this project. OCTA is requesting to implement R/W and Construction as well. In addition, OCTA proposes to increase the total project cost from \$1,959,000 to \$2,188,000. The additional funds will come from OCTA's unprogrammed share balance. The cost increase reflects a \$166,000 increase in PS&E, a \$101,000 increase in Construction and a \$145,000 increase in Construction Support. Further, it is proposed to delete \$102,000 in R/W and decrease R/W Support by \$81,000. Due to the resolution of a utility relocation issue, R/W acquisition is no longer needed, however, \$15,000 in R/W Support is needed to cover the cost of the R/W Certification process. To date, there are no R/W or R/W Support expenditures on this project.

RESOLUTION

Resolved, that the California Transportation Commission revise the 2004 State Transportation Improvement Program at the end of the 30-day notice period, as follows:
